

# Aladdin BASE-LITE 100

## About BASE-LITE 100

BASE-LITE 100 is a soft light with a hard shell and offers many functions and possibilities. It is designed for portable and studio applications. The large face of the light provides soft lighting with clean reflections due to the evenly-distributed diffuser. For a brighter and more powerful light the diffuser can be easily removed.

The fixture offers high control of lighting, being dimmable from 1 - 100% in minute steps. Similarly, the color temperature can be adjusted to anywhere between 2900°K and 6300°K. Streamlined accessories are also available for the BASE-LITE, including barn doors and honeycomb grids.

The BASE-LITE can be powered by a main power supply or batteries (V-Lock or Gold Mount), and you won't have any cables to deal with.

The BASE-LITE has an inbuilt DMX module.

With its power, durability, and easy to use design, the new BASE-LITE will revolutionize the way you work.
